Magnetron

I commissioned creation of a vector graphic version of the magnetron and made it available both here and as a free download from www.radatti.com/books/level2

The magnetron sigil is extremely useful in Radionics. First, it can be used to increase the effectiveness of any Radionics device—powered or symbolic. It can also be used as an antenna like how it is used in the world of microwave energy. You may see magnetron graphics with swirls. Dowse for the one most appropriate.
